AC Not Cooling? Furnace Not Working?

We're Here to Help—Available 24/7

When your HVAC system breaks down, you need help fast—not high-pressure sales tactics. Owner-operator Travis personally handles every job with 15+ years of experience, honest recommendations, and fair pricing.

Primary CTA: "Get Fast Service—Call 801-970-5797"
Secondary CTA: "Schedule Service Online"

Trust Badges:

- ✓ Licensed & Insured in Utah
- ✓ Owner-Operated (Travis on Every Job)
- ✓ 15+ Years HVAC Experience
- ✓ 24/7 Emergency Service
- ✓ No High-Pressure Sales

The Resolute Difference

What You'll Get (That Other Companies Won't Give You)

We know you've probably had bad experiences with contractors before. Here's what makes working with Resolute different:

You Get Travis, Not a Rotating Cast of Technicians
When you call Resolute, Travis personally handles your job from start to finish. No wondering who's showing up at your door. No explaining your problem to three different people. Just consistent, expert service from someone who's been doing HVAC for over 15 years.

[PHOTO: Travis at work - professional but approachable]

Honest Answers About Repair vs. Replace
Here's the truth: if your 12-year-old AC just needs a $250 repair, he'll fix it—even though he could make more money selling you a new $6,000 system. Other companies send salespeople. Travis tells you the truth about what you actually need.

Real example: Recently, a customer called Travis stating that a different company came out because their furnace wouldn't light and were told they needed a new gas valve and that would cost them more than $1,200. Travis showed up, investigated the issue, and found that only a simple sensor needed to be reset. All that customer paid for was a service call.

Fair Pricing Without the Games
No bait-and-switch pricing. No "diagnostic fees" that mysteriously disappear if you buy from him. No pressure to decide right now. You'll get an upfront price before any work starts, and that's the price you'll pay. If you want to think about it or get another quote, that's fine with Travis.

We Actually Answer Our Phone
Try calling another HVAC company at 10 PM on a Saturday when your furnace dies. You'll get

an answering service. Call Resolute Heating & Air and you'll get Travis. He's a local, owner-operated business, which means when you need help, you talk with only one person.

Common HVAC Problems We Solve

When to Call Resolute Heating & Air

[GRID FORMAT - Problem-focused service tiles]

Is Your AC Not Cooling?
Utah summers hit 100°F and your AC is blowing warm air. Travis will diagnose the problem and work to fix it, the same day in most cases.
→ **Call for Same-Day AC Repair: 801-970-5797**

Furnace Quit in Winter?
No heat when it's 15°F outside? We're available 24/7 for emergency furnace repairs. Most furnace problems can be fixed the same day.
→ **Emergency Furnace Help: 801-970-5797**

Finishing Your Basement?
Adding HVAC to an unfinished basement project requires proper planning. We'll design a system that keeps your new space comfortable year-round without breaking the bank.
→ **Get a Free Basement HVAC Quote**

Need a Seasonal Tune-Up?
Prevent breakdowns and lower your energy bills with twice-yearly maintenance. Our tune-ups aim to catch small problems before they become expensive repairs.
→ **Schedule Your Tune-Up**

System Making Strange Noises?
Banging, grinding, or squealing sounds mean something's wrong. We'll diagnose the problem and fix it before it gets worse (and more expensive).
→ **Schedule a Diagnostic**

What Homeowners Say About Us

Real Reviews from Real Customers

[REVIEW SHOWCASE with star ratings]

⭐⭐⭐⭐⭐
"Travis did a fantastic job with the HVAC in my basement. He ran some new vents into each room and he set up my house so that each floor is running on its own thermostat and helped me understand how the system will work with all the dampers he installed. **He did honest and fair work** and if you're reading this call him already so he can help you too!"
— Basement Renovation, West Jordan

⭐⭐⭐⭐⭐
"Travis is such an awesome guy. He is solid. Fixed my HVAC when it wouldn't turn on. **He solved it quick and kept his time costs low.** Use him if you want someone you trust in your own home. I would 1000% use him again!"
— Emergency Repair, Salt Lake County

⭐⭐⭐⭐⭐
"Travis was great! We've used him for AC tune up as well as duct work while finishing our basement. **Super helpful, great price, and even offered suggestions** and opinions on things that we needed some help with. Absolutely will be calling in the future."
— Tune-Up & Ductwork, Utah County

HVAC Emergency? We're Here 24/7

[PROMINENT BANNER - Red/orange background, centered]

Your AC or Furnace Can't Wait Until Monday

No heat in the winter? No AC in the summer?
Available 24/7/365.

EMERGENCY HOTLINE: 801-970-5797

(Call or Text Anytime)

After-hours fees apply, but your family's comfort can't wait.

Our Service Area

Serving Homeowners Across the Wasatch Front

Primary Service Area (No Long-Distance Fees):
Salt Lake County • Utah County • Davis County • Weber County • Summit County • Wasatch County

Outside these areas? We'll still help! Long-distance charges may apply. Call to confirm: 801-970-5797

Why Choose a Local, Owner-Operated Company?

Big Companies:

- Send different technicians each time
- Pay commissions on sales (incentive to upsell)
- Answer to corporate, not customers
- Often subcontract work

Resolute Heating & Air:

- Travis on every single job
- No commissions = no pressure to upsell
- Reputation matters—he lives here too
- Direct accountability

PAGE 2: ABOUT US

[PHOTO: Professional photo of Travis at work or with truck]

Meet Travis Angell: Your HVAC Expert & Neighbor

Why I Started Resolute Heating & Air

I've been working on HVAC systems for over 15 years, and I've seen it all—the good, the bad, and the dishonest. I started Resolute Heating & Air two years ago because I was tired of watching homeowners get pressured into expensive upgrades they didn't need, or being charged astronomical prices for simple and small projects.

At Resolute Heating & Air, you get honest answers, fair pricing, and someone who actually cares about solving your problem—not just making a sale.

What Makes Me Different?

I Answer My Own Phone
When you call 801-970-5797, you're talking to me—not a call center, not a receptionist, not a salesperson. Just Travis. I'll answer your questions, schedule your service, and show up to do the work myself.

No Commission-Based Technicians
I don't work on commission, which means I have zero incentive to upsell you. If a $200 repair fixes your problem, I'll do the $200 repair—even if I could make more money selling you a new system. My reputation and your trust are worth more than a quick buck.

I Live Here Too
I'm based in West Jordan, and I serve my neighbors throughout Salt Lake County and beyond. When I do a job, I know there's a chance we'll cross paths at a store, stoplight, or even at a community event. For me that's not just accountability, but a little bit closer, and better, community.

15+ Years of Real Experience
Resolute Heating & Air may be a new small business to the community, but I've been working on HVAC systems since before smartphones existed. I've fixed poor craftsmanship with detailed work and pride. I've worked in tiny homes up through multimillion dollar homes.

How I Treat Every Customer

I Explain Everything
No confusing, scaring, or tricking you with technical jargon. No hiding things. I'll show/explain to you what's wrong, explain your options, and help you understand what makes sense for your situation and budget.

I Give You Options, Not Pressure
Sometimes repair makes sense. Sometimes replacement is smarter. I'll give you the honest pros and cons of each option and let YOU decide. No pressure, no scare tactics, no "this deal expires today" nonsense.

I Stand Behind My Work
My goal is to be YOUR heating and air conditioning guy. If something goes wrong with a repair I did, I'll make it right. No excuses, no finger-pointing, no trying to charge you again. That's just how business should be done.

Fully Licensed & Insured

Resolute Heating & Air is fully licensed and insured for heating and air conditioning work in the state of Utah. Every job is done to code, permits when necessary, and backed by insurance protection for your peace of mind.

Our Mission

My mission is simple: provide honest, reliable HVAC service that keeps Utah families comfortable without draining their savings, and giving those families someone they can trust.

I want you to feel confident calling me when something breaks. I want you to be able to trust that I'm giving you straight answers. And I want you to know that your comfort and your budget both matter to me.

When you work with Resolute Heating & Air, you're not hiring an HVAC corporation. You're partnering with a neighbor who cares about doing the right thing for you and your family.

More From Our Customers

⭐⭐⭐⭐⭐
"Travis has done an awesome job working on my ac units at my apartments. He was efficient to get the tenants comfortable. He has replaced a condenser and serviced the other units to make sure they were good for the summer."
— Property Owner, Multi-Unit Building

⭐⭐⭐⭐⭐
"Travis has far been my number one ☝️ go to HVAC guy! He is responsive, clear, transparent, trustworthy, and reliable. For simple questions or big projects he has helped me on many different properties and many occasions. I'd recommend using him."
— Real Estate Investor, Multiple Properties

Ready to Work with an HVAC Contractor You Can Trust?

PAGE 3: SERVICES

AC Repair, Furnace Installation & HVAC Services in Salt Lake County

From emergency repairs to new installations, Resolute Heating & Air provides complete HVAC solutions for homeowners across the Wasatch Front. Travis personally handles every job with honest recommendations and fair pricing—no high-pressure sales, ever. Just options and suggestions.

AC Repair & Installation

`[ICON: Air conditioner]`

Is Your AC Not Cooling Your Salt Lake County Home?

When Utah temperatures hit 95°F to 105°F, a broken air conditioner isn't just uncomfortable—it's unbearable. If your AC stopped cooling, is making strange noises, or won't turn on at all, Travis will diagnose the problem and fix it the same day in most cases.

Common AC Problems

AC Blowing Warm Air
Likely cause: Low refrigerant, faulty compressor, or frozen coils

AC Won't Turn On
Likely cause: Thermostat issues, electrical problems, or failed capacitor

AC Making Loud Noises
Likely cause: Worn motor, loose parts, or failing compressor

AC Short Cycling (Turning On/Off Constantly)
Likely cause: Oversized unit, thermostat problems, or refrigerant issues

Water Leaking from Indoor Unit
Likely cause: Clogged condensate drain or frozen evaporator coil

When to Repair vs. Replace Your AC

Repair makes sense if:

- Your AC is less than 10 years old
- Repair costs less than $1,000
- Your system has been reliable until now
- You're happy with your current energy bills

Replacement makes sense if:

- Your AC is 12-15+ years old
- Repairs cost more than 50% of replacement
- You've had multiple breakdowns recently
- Your energy bills keep climbing

Travis's promise: I'll tell you honestly which option makes more financial sense for YOUR situation. No pressure to buy a new system if repair is the smarter choice.

AC Installation for Salt Lake County Homes

If it's time for a new air conditioner, he'll help you choose an efficient system sized correctly for your home—not too big, not too small.

What's included:

- Proper load calculations (no guessing)
- Help choosing the right efficiency level for your budget
- Professional installation to manufacturer specs
- Warranty coverage on new equipment
- Financing options available soon!

Furnace Repair & Installation

[ICON: Furnace]

Furnace Not Working?

Utah winters drop to 0°F to 20°F regularly, and when your furnace stops working, it's an emergency. Travis is available 24/7 for no-heat emergencies.

Common Furnace Problems (And What They Cost)

No Heat/Furnace Won't Turn On
Likely cause: Ignition failure, fuse or breaker has popped, thermostat issues, or gas supply problem

Emergency? YES - Call immediately: 801-970-5797

Furnace Runs But No Heat
Likely cause: Failed pilot light, too many attempts to light, or limit switch tripped

Furnace Making Banging or Grinding Noises
Likely cause: Loose blower wheel, worn bearings, or ductwork issues

Furnace Cycling On and Off
Likely cause: Dirty filter, thermostat issues, or oversized furnace

When to Repair vs. Replace Your Furnace

Repair makes sense if:

- Your furnace is less than 15 years old
- Repair costs less than $1,000
- Heat exchanger is intact (not cracked)
- You're not dealing with frequent breakdowns

Replacement makes sense if:

- Your furnace is 15-20+ years old
- Heat exchanger is cracked (safety issue)
- Repair costs exceed $1,500
- You've had multiple repairs in the past 2 years

Furnace Installation for Utah Homes

What's included:

- Proper BTU and tonnage sizing for your home and ductwork
- High-efficiency options (save on gas bills)
- Professional installation with permits
- Old furnace removal and disposal
- Warranty coverage
- Financing available soon!

Ductwork Services

[ICON: Ductwork]

Ductwork Installation & Repair for Basements, Remodels, Additions

Even the best HVAC system can't work properly with bad ductwork. If you're finishing a basement, adding a room, or building new, proper ductwork is essential.

Common Ductwork Problems

Uneven Heating or Cooling
Some rooms are always hot while others are cold
Cause: Poorly designed or unbalanced ductwork
Solution: Duct balancing or redesign

High Energy Bills
System runs constantly but house isn't comfortable

Cause: Leaking or poorly insulated ducts (can lose 20-30% of air)
Solution: Duct sealing and insulation

Excessive Dust
Your house is always dusty no matter how much you clean
Cause: Leaky return ducts pulling in attic/basement dust
Solution: Seal return duct leaks

Ductwork Services We Provide

Basement Finishes
Adding HVAC to your finished basement requires careful planning. We'll design ductwork that integrates with your existing system or install a separate zone if needed.

Duct Repair & Sealing
Fix leaking or damaged ductwork to improve efficiency

Seasonal Tune-Ups & Maintenance

[ICON: Wrench/checklist]

Prevent Breakdowns & Save Money with Regular HVAC Maintenance

What's Included in Our Tune-Ups

Spring AC Tune-Up:

- Clean condenser coils (improves efficiency)
- Check if indoor coil needs cleaned
- Check and top off refrigerant if needed
- Test thermostat accuracy
- Inspect electrical connections
- Lubricate moving parts
- Replace air filter
- Clear condensate drain
- Test system performance
- Identify potential problems before they cause breakdowns
- Ensure motors, parts. And compartments are clean

Fall Furnace Tune-Up:

- Inspect heat exchanger for cracks with photo proof (safety critical)
- Test ignition system
- Check and adjust gas pressure
- Clean burners for efficient combustion
- Test all safety controls
- Lubricate blower motor if applicable
- Replace air filter
- Combustion analysis with photo proof
- Verify proper venting

Why Maintenance Matters

Skip maintenance and this happens:

- Small $200 problems become $2,000 problems
- Energy bills increase 15-30% from inefficiency
- System lifespan decreases by 5-10 years
- You're more likely to have breakdowns during extreme weather when the systems run the hardest
- Warranty may be voided (some require annual maintenance)

With regular maintenance:

- Catch problems when they're cheap to fix
- Lower energy bills year-round
- System lasts significantly longer
- Fewer emergency breakdowns
- Better indoor air quality

→ **Save more with a Maintenance Plan** - Twice-yearly tune-ups, priority scheduling, 10% off all repairs

---

Basement HVAC

`[ICON: House/blueprint]`

Basement Finishes

Basement Finishes:

- Extend existing ductwork or add separate zone
- Proper humidity control for below-grade spaces
- Integration with existing HVAC system

- Code-compliant installation

Who We Serve:

- Basement remodels and finishes
- Home additions
- Investors with rental properties
- Light commercial projects

Residential & Light Commercial

Residential Services:
We serve homeowners, property managers, and real estate investors throughout Salt Lake County and surrounding areas.

Light Commercial:
Small offices, retail spaces, small warehouses, and multi-unit properties. We focus on fast response and personalized service for small business owners.

Note: For large commercial projects, we're happy to provide referrals to specialized commercial contractors.

Why Choose Resolute for HVAC Service?

✓ **Travis personally handles every job** - No wondering who's showing up

✓Second opinion
✓ **15+ years of HVAC experience** - I've likely seen your issue before
✓ **Honest repair vs. replace advice** - We won't sell you what you don't need
✓ **All brands serviced** - Carrier, Trane, Lennox, Rheem, Goodman, and more
✓ **24/7 emergency service** - Available when you need us most
✓ **Licensed & insured** - Fully licensed in Utah
✓ **Fair pricing** - Quality work without the markup
✓ **Same-day service available** - Usually within 2 hours

Service Areas

We provide HVAC services throughout Salt Lake County, Utah County, Davis County, Weber County, Summit County, and Wasatch County.

Cities we serve: West Jordan, Sandy, Draper, South Jordan, Salt Lake City, Provo, Orem, Lehi, Bountiful, Layton, Ogden, Park City, and all surrounding communities.

Frequently Asked Questions

How much does AC repair usually cost?
Most AC repairs range from $150-$600. Common fixes like capacitors or refrigerant recharges typically cost $300-$500. We'll give you an upfront price before starting work.

When should I repair vs. replace my furnace?
Generally, if your furnace is under 15 years old and the repair costs less than $1,000, repair makes sense. If it's 18+ years old or needs expensive repairs, replacement is often smarter. I'll give you honest advice on what makes financial sense.

How long do HVAC systems last?
With regular maintenance: AC units last 12-15 years, furnaces last 15-20 years. Without maintenance, you could see a 30-40% shorter lifespan.

What's included in a tune-up?
Complete inspection, cleaning, testing, and adjustment of all components. Travis checks for potential problems and can fix small issues before they become expensive breakdowns.

Do you offer payment plans?
SOON!!

How quickly can you get here?
For emergencies: typically within 1-2 hours. For scheduled/non-emergent service: usually within 24-48 hours, often same-day or next-day.

What if you can't fix it?
If I can't fix it, you don't even pay for the service call. Simple as that. And I'll even help find someone that can.

PAGE 4: EMERGENCY SERVICE & MAINTENANCE PLANS

[SPLIT LAYOUT - Emergency prominent on left, Maintenance on right]

24/7 EMERGENCY HVAC SERVICE

[PHOTO: Travis responding to call, or truck at night/early morning]

Your Furnace or AC Can't Wait Until Monday

When your heating or cooling system fails, you need help NOW—not Monday morning. Travis is available 24 hours a day, 7 days a week, 365 days a year for HVAC emergencies throughout Salt Lake County and surrounding areas.

EMERGENCY HOTLINE: 801-970-5797

Call or Text Anytime - Travis Actually Answers

Average Response Time: 1 Hour or Less

What Qualifies as an HVAC Emergency?

Some problems can wait until morning. These can't:

❄️ **No Heat When It's Below Freezing**
When it's 10°F outside and your furnace quits, that's dangerous. Prolonged cold without supplemental heat can:

- Burst pipes (causing thousands in water damage)
- Put elderly family members, young children, or pets at risk
- Make your home uninhabitable

What to do: Call us immediately at 801-970-5797. Don't wait until morning.

🔥 **Gas Smell or Yellow flame**
If you smell gas or see a yellow flames (should be blue), this could indicate:

- Gas leak (fire hazard)
- Carbon monoxide production (deadly)
- Improper combustion

What to do:

1. Turn off your furnace immediately
2. Open windows
3. Call 801-970-5797 right away
4. If you smell strong gas, evacuate and call 911

☀️ **No AC During Extreme Heat (95°F+)**
When temperatures hit triple digits, a broken AC isn't just uncomfortable—it's a health risk, especially for:

- Elderly family members
- Young children
- Anyone with health conditions
- Pets

What to do: Call 801-970-5797 for same-day emergency AC repair

💧 **Significant Water Leaks**
Water pooling around your HVAC system can cause:

- Flooring damage
- Wall/ceiling damage
- Mold growth
- Electrical hazards

What to do: Turn off power to the unit and call 801-970-5797

⚡ **Electrical Problems**
These symptoms indicate serious issues:

- Burning smell from HVAC system
- Sparks or smoke
- Repeatedly tripping breaker
- Electrical arcing sounds

What to do: Turn off power at the breaker or disconnect and call 801-970-5797 immediately

---

What to Expect When You Call for Emergency Service

Step 1: You Call or Text 801-970-5797
Travis answers. He'll ask a few quick questions to understand the problem.

Step 2: He Gives You an Estimated Arrival Time
Typically 1 hour or less, depending on your location and current weather conditions.

Step 3: Travis Arrives with a Stocked Service Vehicle
Because I keep a stock of common failure parts on the truck, many problems can be fixed on the first visit.

Step 4: Fast Diagnosis
Travis will identify the problem and explain what's wrong so you can make an informed decision on how to proceed.

Step 5: Upfront Pricing
You'll get a price before any work starts. If you decide not to proceed, you only pay the emergency service call fee.

Step 6: Most Repairs Completed Same Day
We fix the majority of emergency problems on the spot. If we need to order a part, we'll explain the timeline.

Emergency Service Pricing

Transparent About Costs:

After-Hours Service Fees:

- Weekdays after 6:00 PM: Additional $115
- Weekends (Sat/Sun): Additional $115
- Holidays: Additional $200

Emergency Service Call: $155

Why the extra fees? Emergency service means Travis drops everything—including time with his family—to help you. The fees compensate for that immediate availability.

But here's the truth: When your furnace dies at midnight in January, you're not worried about an extra $75 fee. You're worried about your family freezing. We'll get you back up and running ASAP.

Why Choose Resolute Heating & Air for HVAC Emergencies?

✓ **Actually available 24/7** - Not voicemail, not "we'll call you back Monday"
✓ **Fast response** - Typically 1 hour or less
✓ **Travis personally responds** - You get an experienced technician, not a random guy on call
✓ **Stocked truck** - Most repairs completed same visit
✓ **Upfront pricing** - No surprise bills later
✓ **Safety first** - Travis takes gas leaks and carbon monoxide seriously

---

Service Areas for Emergency Calls

Priority Response (Fastest):
West Jordan, Sandy, Draper, South Jordan, Riverton, Herriman, Salt Lake City

We Also Serve:
All of Salt Lake County, Utah County, Davis County, Weber County, Summit County, Wasatch County

Call to confirm if you're outside these areas: 801-970-5797

MAINTENANCE PLANS

[PHOTO: Travis performing tune-up]

Stop Paying for Emergency Repairs

Prevent Breakdowns with Our Maintenance Plan

The hard truth: That $2,500 emergency repair at 10 PM on a Saturday? It probably could have been caught during a $150 tune-up and fixed for $400.

Regular maintenance doesn't just save money—it gives you peace of mind knowing your system is less likely to fail when you need it most.

What's Included in Our Maintenance Plan

✓ **Twice-Yearly Professional Tune-Ups ($300 value)**

- Spring AC tune-up before summer heat
- Fall furnace tune-up before winter cold
- Complete inspection, cleaning, and testing
- Catch small problems before they become big expenses

✓ **Priority Scheduling (Priceless value)**

- Skip the line when you need service
- Faster response times than non-members
- Preferred appointment times

✓ **10% Discount on ALL Repairs**

- Applies to parts and labor
- Often pays for the plan in one repair
- Savings add up over time

✓ **Detailed System Reports**

- Know exactly what condition your system is in
- Photo documentation when needed
- Recommended maintenance timeline

✓ **Extended Equipment Life**

- Regular maintenance can extend system life by 5-10 years
- That's thousands saved by delaying replacement

✓ **Peace of Mind**

- Less worrying about "will my AC make it through summer?"
- Less surprise breakdowns
- Budget predictably for HVAC costs

The Real Cost of Skipping Maintenance

Without Regular Maintenance:

- Energy bills increase 15-30% from dirty components
- Small $200 problems become $2,000 emergencies
- System fails 5-10 years earlier than it should
- More frequent breakdowns during extreme weather

- Warranty may be voided

With a Maintenance Plan:

- Lower energy bills
- Catch problems early when repairs are cheap
- System lasts significantly longer
- Avoid emergency breakdowns
- Maintain manufacturer warranty

Maintenance Plan Pricing

Single System: $299/year
Two Systems: $549/year (save $49)
Three+ Systems: Call for quote

What you get:

- 2 tune-ups per year (Spring AC, Fall furnace)
- Priority scheduling all year
- 10% off all repairs
- Detailed system reports
- Extended equipment life
- Peace of mind

Average member saves: $300-500/year in avoided repairs and energy savings

---

Who Should Get a Maintenance Plan?

Perfect for:

- Homeowners who want to protect their HVAC investment
- Anyone with a system over 5 years old
- Property managers with rental homes
- Real estate investors with multiple properties
- Families who can't afford surprise $2,000 repairs
- Anyone who wants their HVAC system to last as long as possible

---

Frequently Asked Questions

Can I cancel anytime?
Yes. No long-term contracts. We keep you as a member by providing great service, not by locking you in.

What if I need a repair between tune-ups?
No problem! You get priority scheduling and 10% off the repair. That's the value of membership.

Do you service all brands?
Yes. We service all makes and models of HVAC equipment.

What if my system needs a major repair?
If we find a major issue during a tune-up, Travis will explain your options honestly and give you upfront pricing. Your 10% member discount applies to all repairs.

Is it really worth it?
Most members save more than the plan costs through:

- 10% discount on repairs
- Lower energy bills
- Avoided emergency service fees
- Extended equipment life

Plus, you get peace of mind knowing your system is maintained.

We'll ask a few questions to understand your situation and schedule the right amount of time.

3. Convenient Scheduling
We'll find a time that works for your schedule. Same-day and next-day appointments usually available.

4. Confirmation
You'll get a confirmation call/text before Travis arrives.

5. On-Time Arrival
Travis' goal is to arrive on time. If he's running late, he'll contact you

6. Honest Diagnosis
Travis will diagnose the problem, explain what's wrong, and give you options with upfront pricing.

7. Quality Service
Once you approve, Travis will get to work.

Service Areas

OUTSIDE THESE AREAS?
We're happy to help! A long-distance service charge may apply for locations outside our primary service area. Call 801-970-5797 to confirm availability and pricing.

`[OPTIONAL: Include a simple map showing service area coverage]`

Why Choose a Local HVAC Contractor?

When you call a big national company:

- Talk to a call center (not the technician)
- Get whoever's available (different person each time)

- Pay for their advertising and overhead
- Deal with corporate policies

When you call Resolute:

- Talk directly to Travis (the guy who'll do the work)
- Get the same experienced technician every time
- Pay for quality work, not corporate overhead
- Work with someone who lives in or near your community

We're your neighbors. Travis is based out of West Jordan, shops at the same stores you do, and runs into customers frequently. That local accountability keeps us honest and focused on doing right by you.

Frequently Asked Questions

Do you offer free estimates?
Yes! Free estimates for installations and major repairs. Standard service call fee applies for diagnostic visits

Are you available for emergencies?
Yes, 24/7/365. Call or text 801-970-5797 anytime. Average emergency response time: 1 hour or less.

Do you offer financing?
Soon! So if it's something you need, ask so that you have the most updated info.

What brands do you work on?
All of them. Carrier, Trane, Lennox, Rheem, Goodman, Bryant, Amana, American Standard, and more.

Are you licensed and insured?
Yes. Fully licensed and insured for HVAC work in the state of Utah. You can even look Resolute Heating & Air up on Utah State's DOPL (Department of Professional Licensing). Full liability insurance coverage.

Do you service commercial properties?
Yes, we handle light commercial HVAC for small offices, retail spaces, and multi-unit residential properties.

What if I'm not happy with the work?
If you're not satisfied, we'll make it right—no excuses. Your satisfaction matters more than anything.

How do I pay?
We accept cash, check, and all major credit cards. Financing soon to be available for larger projects.

Customer Reviews

⭐⭐⭐⭐⭐ **5.0 Stars on Google**

Don't just take our word for it—see what your neighbors say:

"Travis is such an awesome guy. He is solid. Fixed my HVAC when it wouldn't turn on. He solved it quick and kept his time costs low. Use him if you want someone you trust in your own home. I would 1000% use him again!"
